

Dear Parents

Please find attached various documents. New boarding parents would have received some of the information already, so please excuse the duplication. All boarders will also receive a letter from their respective house parents.

The documents included herewith are the Boarding Booklet, that consists of a summary of all matters relating to boarding, the Medicine Policy (new for 2021) and instructions on how to use Engage from 2021 onwards to request a weekend exeat for your child and how to load important medical information onto Engage. We would appreciate it if you take time and care in reading these documents and making sure that we have all the necessary information when school starts in 2021.

Other important information can be accessed on:

<https://www.woodridge.co.za/important-dates-and-documents>

Please note that we need a reply from ALL parents with the medical information. You can either load the information onto Engage (see instructions) or email the documents back to the Boarding parents.

I hope that you will enjoy the festive season with your children.

Regards,
Christoff Opperman (Director of Boarding)
