

# KIT LIST - OUTDOOR EDUCATION

(PLEASE MARK ALL KIT)

## What is OUTDOOR EDUCATION?

The adventure begins in the Foundation Phase, on the 240 hectares of the Woodridge Campus and further beyond the boundaries of the school gates. OE is accessible to all, not forgetting though that it is also about HIGH ADVENTURE for those who chose it. Ultimately though, its about building skills and fitness. It's about self discipline and reliance, initiative and imagination. But most of all, it's about COMPASSION. There lie many opportunities, some compulsory, some voluntary. Outdoor Education encompasses adventure, experiential learning through and integration of the curriculum with the outdoors. Very importantly, it is about environmental education (Eco-Schools) and conservation activities. **This is what OUTDOOR EDUCATION is about!**

## Kit List

### What we recommend:

- ✓ **Tent** – small TWO/THREE PERSON tent **WITH A FULL FLY SHEET**. Please **ABSOLUTELY NO 'pop up tents'**, as they are too difficult for children to pack up and hike with. 
- ✓ **Sleeping bag** – as small and lightweight as you can afford – one that can be stuffed into its bag and NOT rolled. 2/3 season.

- ✓ **Sleeping mat** – no pilates or yoga mats – preferably a short high-density foam, 1cm thick, roll-up camping mat.
- ✓ **Ruck Sacks**

- A small 10 to 20-litre DAY PACK
- A larger 55 to 70-litre HIKING BACKPACK – Will be from GRADES 8 TO 12.

- ✓ MUST have waist straps that fit tightly above the hips!
- ✓ **Headlamp**

- LED – best for camping

- ✓ **Water bottle/Hydration pack**

- Either 2 x 750ml CYCLING bottles
- OR a 2 - 5-litre HYDRATION PACK

- ✓ **Bicycles**

- The best place to find a bicycle is a good cycle shop (**not** Sportsmans Warehouse, supermarket or furniture store). There they can make sure you have a **MOUNTAIN BIKE** that fits you properly and most importantly, a bike that is put together well and will not break the first time you use it. From Grade 4 we recommend a mountain bike with gears. These best suits the type of riding the children do. Grade 10's will need one for THE 21 DAY JOURNEY.
- PLEASE – always get puncture sealant/SLIME put in your tyres before bringing it to school as the many thorns result in numerous punctures, otherwise.

- You will only be allowed to ride at school WITH A HELMET.

You will only be allowed to keep your bike in the bike shed if you keep it locked with a **combination lock** (bike shops).

Make sure the bike is in good working order (the bike shops can help you).

Use **BIKE WAX LUBRICANT** on your chain (not Q20 or WD40)

### Recommended bike shops:

- Cyclo Pro – Elliott Centre – William Moffett – Port Elizabeth
- Wayne Pfeiffer Cycles – next to Spar in Linton Grange and Summerstrand
- Coimbra Cycles – Villiers Road, Walmer
- Action Cycles – Heugh Rd – Port Elizabeth
- Penford Cycles – Uitenhage
- Custom Bikes – St Francis Bay
- J-Bay Bike Shop – Jeffrey’s Bay

**SHOPS IN PORT ELIZABETH WILL DELIVER A NEW BIKE TO THE SCHOOL and we can assist you in ordering a suitable bike from these shops. Please contact Mr Teeton (College) and Mr Reed (Prep) for advice if required.**

## CAMPS DURING THE YEAR

<b>Grade 1</b> Camp twice a year on the school campus (1 night)	<b>Grade 8</b> 2-grade camps/expedition –2 night 3-day, Presidents Award and possible micro-adventures at weekends

Climbing equipment	Can be stored in school lock up
Adventure shirt	School cycling shirts (adventure shirts – from 2020)

***It takes a little sweat to reach place truly extraordinary***

## **From a pupil's perspective: Anja Cronje - Grade 7 - Woodridge Preparatory School**

### **Adventures (Outdoor Adventures)**

*Beautiful places are not only found in books. Believe it or not, this world is not only concrete. The beautiful places are hidden and difficult to find because if they were easy to find there would soon be a car park there, then a shop, then no more beauty. But you have to have the look properly to see it.*

### **The Thrill**

*Coming down that hill on the cycle race, zip-lining across the trees, jumping off the cliff into the water. They all give you the same feeling. The minute your feet leave the ground, the minute the back wheel of your bike passes the hill your heart leaps into your throat, all your worries fade away, you relax and you just enjoy it. You get that feeling in your stomach and you wish it could last forever, but it's over so quickly, but at least you end it with a smile. Your cheeks hurt because you can't make your smile broad enough or last long enough. This new feeling overwhelms you, it's a feeling of success, delight and satisfaction but only better. The next time you hear the word cycle or hike your ears prick, your eyes twinkle and you're the first to ask, "Can I come?"*

### **Past Adventures**

*Woodridge Way: Hate the training, but it's worth it. Most of you haven't seen half of it. It's not just to get there-it's the journey. The tough patch where you want to give up, but your team keeps you going. The easy patch where you help your team. At the end of the day, unlike most sports, it is not, "Ha, ha. You came last." It's, "What did your team do?"*

### **Finishing**

*Most people will tell you when you've finished a cycle race you feel confident, good and 'up to it'. It's all true but there's more: the minor pain from your scratches fade away, your knees feel weak but stronger than before, your throat feels sticky but you can smile better and eat food faster, but best of all you're exhausted and you want to flop down on the floor but you would rather stay standing and tell everyone your adventure and congratulate the others. Now I could tell you that I tasted the best water at a pure waterfall in the Baviaans, that the Alexandria Trail is the most fun hike I've done in my life so far, I could tell you that the pool at the end of the Groendal day hike is the best place to swim in and that during the 1st Woodridge Way ever I learned the most important things. Those experiences I've had and I can't get back, and I can't show you them, but I can make new ones. But I won't tell you all those things because I can't explain to you how it really was like. So now I end my speech as I started it, with a statement:*

*A picture tells half the story, your words tell a quarter. But being there tells it 100%.*
